

Zinzino Lookbook

*The word “zinzino” means
a small piece with great value.*

*To us, you are of infinite value.
That is why we are on a mission to bring
out the very best in all of us.*

Inspire Change in Life

The way to better
health is personal.
Not a guessing game.

You are one of a kind.

Your journey starts with our health tests. That's how we bring you and the world back into balance.

"We are the pioneers of test-based, personalized nutrition from the land of the northern lights, midnight sun, deepest fjords and steepest mountains."

Step out of the dark.
Join the new standard
for personal health.

Take your first test as a baseline measure before starting your personalized supplement routine. Take your next test to track your progress and get concrete proof, in writing, that the products make a difference.

Backed by our Scientific Advisory Board,

...and the world leader in blood spot testing

Vitas is an independently managed, GMP-certified chemical analysis contract lab based in Oslo, Norway.

Knowledge is power.
And peace of mind.
Your journey to
awareness begins with
one drop of blood.

Did you know that a single drop of blood contains more molecules than there are grains of sand in the Sahara Desert?

Our dried blood spot test gives you the hard facts on the current state of your health and what nutrients your body is missing.

Backed by science.
Powered by nature.

Test, don't guess.

Zinzino unlocks the secret to a balanced life.

Our formula is a true force of nature.
And olive oil is the game-changer.
That's why BalanceOil+ is closer to
oily fish than fish oil.

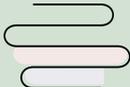

By combining pure fish oil with extra virgin olive oil from pre-harvest olives, the Omega-3 nutrients are kept fresh and potent with the same powerful antioxidants naturally found in fish.

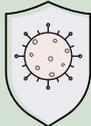

Our health tests reveal what nutrients your body needs. The Health Protocol shows you the way forward.

1. Balance

2. Restore

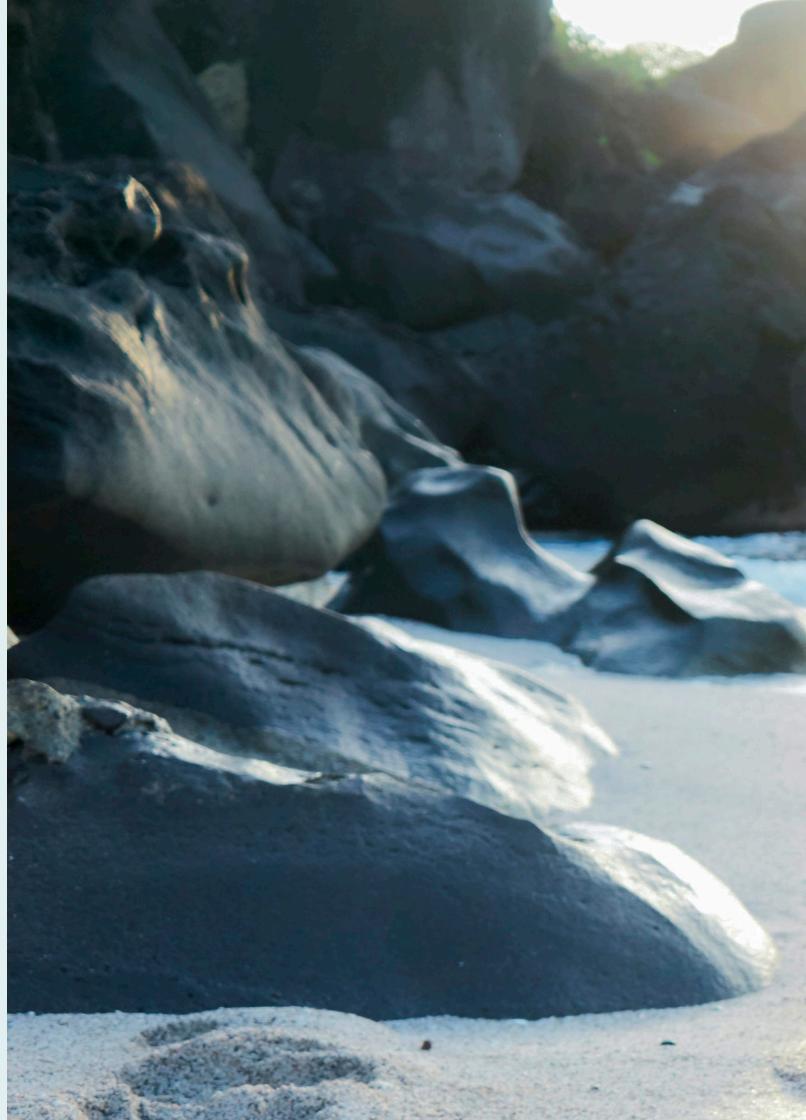

3. Support
